Hey,

Thank you for the awesome event! As I promised, I took some pictures from it. All of them have been processed, and I've asked permission from every person on the images.

If you like what you see and think these pictures could be useful for your promotional materials or social media, **feel absolutely free to use them**. If you decide to do that, a shout-out would also be great 😊. (You can see my IG profile below)

I would love to hear yours and your team's thoughts on the photos, and if you have any upcoming events or projects that could use a photographer, I'd love to be involved!

Best regards,
